

Do you care about family safety?

Do you want to help your neighbors?

HELP YOUR NEIGHBORS ORGANIZE A COMMUNICATION NETWORK TO MAKE YOUR NEIGHBORHOOD SAFER!

Fill out the **Information Form** and return it to your Street Contact. You will help them help you. In a fire, they can tell the Fire Department how many people and pets might be in the house, and if anyone has special needs (as the form details). In a disaster, the information will help them account for every person and be sure anyone who is hurt gets help. If there is a problem at your house and you are not there, they can call you and alert you if they have your business phone number.

Include your e-mail address for last minute updates and instant advisories.

Use the **Information Form** to tell how you might be able to help your neighbors in a serious disaster – with medical skills, by translating, or using equipment you own.

Providing this information and keeping it current by reporting changes at your address is **VOLUNTARY**, but it could save your life or that of your pet. **THIS INFORMATION STAYS IN YOUR NEIGHBORHOOD TO HELP YOU HELP EACH OTHER.**

Return the filled out **Information Form** to
